

Fire Artist

Turn up the heat with one or more of our incredible fire artists! We can provide an assortment of fire skills including fire eating, fire breathing, fire spinning and manipulation with hoops, fans, fingers, staffs, and poi. Fire artists add attitude, danger, and sex appeal to any event.

Special Notes

There are no special needs for a fire eating (swallowing) act, as the flames involved are small and controlled the entire time.

A fire breather performs outside or in a large and well ventilated indoor space. Indoor spaces are considered on a case by case basis.

All of our fire artists come equipped with fire suppression equipment as a requirement of our insurance.

Technical Requirements

Fire spinners require an area clear of any obstructions with a minimum radius of 15 feet and typically perform outdoors.
