

The Little Circus

In association with the Give & Take Jugglers, the Little Circus is a self contained variety entertainment show that is a consistent hit for all ages! Colorful performers walk on wires, juggle, and fly through the air on a trapeze, with lots of audience participation. Playful banter infuses the dialogue which keeps kids giggling and adults engaged.

Special Notes

We require a rectangular floor space no less than 24 ft by 28 ft deep, with a 19 ft tall unobstructed vertical space. The performance takes place within this 3D area. We lay down a bright fabric around the perimeter to create the front row. The audience can sit right up to this line. The Little Circus only requires an electrical source to operate, and is an otherwise self-contained production.
